OGDEN AUTO TURNS TURTLE

Albert Scowcroft's Machine Upsets on Road to Brigham, Injuring Occupants.

A big touring car belonging to Albert Scowcroft of this city, turned turtle while running at a twenty-mile an hour speed, eight miles north of Ogden yesterday afternoon. The occupants of the machine were seriously hurt. Those in the auto at the time of the accident were Driver Ralph Grange, Albert Scowcroft, Jack Walter, W. B. Bratz, of Ogden, Walter McNichols, of Elv, Ernest Fisher, of Lake, and Edith Robinson of Tintic. The latter was pinned beneath the machine, where he was held until the car was raised. That all were not killed seemed a wonder. The automobile was a complete wreck.

The party was made up to attend the ball game between Elly and Brigham, at Brigham City yesterday afternoon. According to those in the car, Chaffee Grange was responsible for the accident. They say he ran the machine at a dangerous rate of speed. At a dangerous turn he struck a ditch, turning the machine completely over. The fact that the auto landed upon the top probably saved the lives of those in the party. After landing bottom side up the auto turned partly on one side. Robinson was caught by the neck and chest and severely injured. As soon as the party had freed themselves a telephone call was sent to Ogden and a machine from here sent out to take the crowd to Hot Springs, where they took a train back to the city.

CELEBRATIONS IN CACHE MAY HAVE WATER SYSTEM

Sports at Logan and Kid Bernstein Likely to Join in Big Scheme.

Logan, July 5.—Logan celebrated the Fourth in fine style, the celebration being a greater success than any for many years, the parade being very fine. The meeting held in the tabernacle was well attended, the speakers being delivered by Mat, Thomas of Salt Lake City. The sports were unusually good. The river-tide walking race, won by John Hansen of College, who stepped the distance in 24½ minutes. Herman Steffenhagen landed second prize.

The ball game between the Oaks team of this city and the Peterboro nine was a snappy one, the Oaks winning, 6 to 2. Neither side got more than five hits, but costly errors by Peterboro's infield played havoc with the score. The batteries were Christensen and Singleton for the Oaks, and Kidman and Kidman for the Peterboro.

The tug of war between the Danes and Swedes, however, was the most exciting event of the day. It occurred at 7:30 o'clock on Main street, and after pulling for one hour and five minutes the Danes won. The contest was the fiercest ever seen here, many of the contestants having the flesh torn from their fingers by the rope, but racial spirit ran pretty high, and both teams exerted themselves to the utmost. The winner was Hyrum Jensen, captain, Joseph H. Olsen of College, an champion, Ephraim Christensen, Moses Jorgensen and Eugene Peterson of Logan and James Olsen of College.

At Smithfield the great feature of the celebration was the boxing bout between Bert Danford and Kid Bernstein. Danford put the Salt Laker out in the third round with a right jab to the jaw. The use of firecrackers or other explosives was prohibited as far as possible all over the county, and in consequence no accidents have been reported.

Eureka, July 5.—In spite of the fact that nearly 1,200 people left the Tintic district to spend the Fourth with their relatives in the valley and other towns, Eureka's celebration was grand success. People from Diamond, Silver City, Robinson and Mammoth came over early in the day and at 7 o'clock the streets were crowded with people in holiday attire, and long before the parade started the sidewalks were impassable, every available inch having been taken so that a good view of the pageant could be obtained. Never has a finer parade been witnessed in Eureka, and Captain Depreux was much congratulated on the good work performed by him and his aides. The band surpassed all previous performances, and Miss Eliza Rizzelli made a beautiful goddess of liberty. Eureka Miners' union, the volunteer firemen and the local army of Eagles made a splendid showing, the last named having a beautiful float.

After the parade services at the Elks' pavilion were appropriate and impressive, and the orator of the day, B. N. C. Stott, made an exceptionally fine address.

American Fork, Lehi and Alpine Likely to Join in Big Scheme.

American Fork, July 5.—The mayor and city council and the Commercial club, in connection with the representation from Lehi, went to Alpine canyon this morning to investigate the proposition of piping water from some springs to the towns of American Fork and Lehi to supply their water systems. The springs are owned by the people of Alpine, and it is proposed that the three towns join in getting the water to the city and over town and over town jointly. The water is of excellent quality, and if piped to the towns would have sufficient force and quantity to make first class systems. American Fork has at present a first class system that has just been installed, but it is feared that the supply, which is sufficient at present, will not be large enough in a few years. Therefore it is thought that the proposition will be taken up and that work on the project will be commenced in the near future, as Lehi is very anxious to get the water in his city.

BODY OF CHILD FOUND

Richfield, July 5.—The body of the 2-year-old baby girl of Mr. and Mrs. Mori Barney, which will be remembered was drowned in the Brooklyn canal about two months ago, was found Tuesday afternoon by George Blain, a farmer of Brooklyn. Mr. Blain was engaged in hauling cut wood from the Sevier river and he noticed a large log in a bend of the river and he proceeded to hitch his team to the top and immediately jumped into the river and brought it out.

In all probability the child had lodged under the log soon after it went into the Sevier river from the Brooklyn canal, which empties in the river, as the body had never been exposed, and was in an excellent state of preservation, being very little if any decomposed. Its features were easily recognized.

Mr. Blain immediately took it to the home of its parents in Brooklyn, who have been longing for the day of its recovery. The place where the body was found is about six miles from where the child fell into the canal. The body was found at a mile from the big bridge that crosses the river between Central and Monroe. The funeral will be held yesterday at the home of the parents in Brooklyn.

ROCKEFELLER IN CHICAGO TO TALK

Continued from Page 1.

H. E. Felton, president of the Union Tank Line company, with offices in New York.

W. M. Hutchinson, secretary-treasurer of the tank line.

Fred A. Wann, former general freight agent of the Chicago & Alton railroad.

Questions to Be Asked.

It is from these witnesses that Judge Landis hopes to obtain the information that will aid him in fixing the amount of fines to be imposed upon the Indiana corporation recently found guilty of accepting concessions from the Chicago & Alton railroad on shipments of oil from Whiting, Ind., to East St. Louis, Ill., and St. Louis.

This is what the court wants to know before he decides upon the imposing of a maximum fine of \$25,000 against the Standard Oil company of Indiana.

What corporation owns the stock of the defendant company?

What capital has this holding company? What were the earnings of the holding company in 1903, 1904 and 1905?

What payment did the Chicago & Alton railroad make for the use of the cars of the Union Tank Line company during the period covered by the indictment on which the company was tried and convicted?

How many cars of oil were shipped over all lines from Whiting to St. Louis and East St. Louis?

Why was a rate of ten cents inserted in some of the Chicago & Alton railway's contracts when the time covered by the indictment?

The Standard Oil company tomorrow will be represented in court by Attorneys John S. Miller, Alfred D. Eddy and Moritz Rosenthal. The attorneys tonight stated that they have a course of procedure which will be adopted by them tomorrow, but what that procedure would be specifically they would not disclose.

START FROM NEW YORK.

Head Men of Standard Oil on Their Way.

New York, July 5.—William Rockefeller, John D. Archbold, William P. Howe, F. Q. Barstow, H. E. Felton, C. M. Pratt, Charles T. White, J. N. Moffatt and William Hutchinson left early today for Chicago, where they will appear tomorrow before Judge Landis in the federal court in answer to subpoenas requiring them to give testimony in the Standard Oil company cases now on trial there. This information was given out officially today by M. L. Elliott, general counsel for the Standard Oil company.

United States Marshal Henkel had in his possession a subpoena for William Rockefeller, but was unable to secure the same on him. It was reported that he was in various places, but Marshal Henkel was unable to locate him. According to Mr. Elliott's statement, Mr. Rockefeller decided, as soon as he heard that there was a subpoena out for him, to go to Chicago without waiting for service.

H. H. Rogers, for whom a subpoena has also been issued, returned today from Europe, but he will not be able to reach there in time, as the subpoena calls for the presence of the witnesses at 10 o'clock tomorrow morning.

An attempt was made to rob the home of John Foulkes, 216 East Third South street, yesterday afternoon about 5 o'clock. Two young men went into the alley east of the house, and one of them entered the window. Shortly after the other man followed. People across the street noticed them and notified the police. There was a mistake about the address, and the patrol wagon went to 215 West Third South street, and by the time that the mistake was discovered and the wagon had arrived at the right place the burglars escaped. Several men gave chase, but were forced to give up. No one was in the house at the time, as the family was out of the city. Investigation showed that the men were cutting through the door that led into the upper part of the house when they left.
